

**Be it resolved.....
A main motion is launched!**

Parliamentary Procedure Flowchart

Hints and Notes: Objection to Consideration or Motion to withdraw is only possible immediately after motion is stated (Ramon only: even if stated with a second). Do not move to rescind/reconsider a motion right after it passes unless something has happened to change people's minds. You just lost by over 50%, you're not going to suddenly have the 2/3 needed to override. A tie vote always loses. You must finish a sub-motion before returning to the previous motion. Point of order, Appeal decision and Point of Personal Priviledge may not be ignored or thrown out and always take priority - Don't use them for silliness, it just wastes time.
Most important: These rules are designed to help make things run smoothly and give everyone a chance to participate.

Return to last pending motion, or open the floor to a new main motion.
